## 100-foot folding container for Sarajevo city lighting

How much does a container light cost?

You can hook up an LED light with a portable battery to provide light inside your container. You can get a 110 V 18 W 2 FT linkable LED light for about \$30-\$35 per unit. Exterior lights or floodlights help you illuminate the perimeter of your container. These lights also help add to the safety of the unit.

How do you install a shop light in a shipping container?

Drill a hole in the wall to connect the panel wires to the battery and attach it to the controller. Use electrical conduits to create an outlet and make contact with the switch. Stick the LED light on the roof and fix it with one of the outlets. Watch how a designer single-handedly installs shop lights in a shipping container.

How many foldable containers can a 40ft container load?

One 40ft container can load 8-10 sets foldable containers. The base plate of foldable container is made of thicken-high quality galvanized steel, and the sidewalls is using high strength polyurethane insulation board, thermal insulation. Seamless splicing of the container body, strong sealing. You can install these foldable containers easily.
