
2000W solar panel 220v home complete set

What is a 200W solar panel?

200W 12V solar panel is built predominantly for permanent installations on the roofs of 4WD, vans, caravans, campers, motorhomes, RV's, commercial service vehicles, large boats & yachts, powering 12V sealed lead-acid batteries that power devices such as 12V fridges, air-compressors, lighting and other 12V devices.

What is included in a DIY solar installation kit?

Request a quote Complete 2kW DIY solar panel kit for home installation. Each DIY solar install kit includes solar panels, microinverters, and racking.

How much energy does a 2000W microinverter produce?

Request a shipping quote and get a free solar layout. This 2000W microinverter kit serves as a great entry-level option. The five 400W modules produce enough energy -- 175 to 375 kilowatt(kW) -- to offset small and medium size loads such as lighting, television and kitchen appliances while taking up little roof space.

Where can I buy solar panels?

We will customize the system for your property and calculate how much energy your solar panels will produce for you. Wire, conduit, fittings, breakers, AC/DC Disconnects (if required), junction boxes and a sub panel (if required) can be purchased at any electrical supply shop, Home Depot or Lowes.
