

## A2 Battery Cabinet Installation

What is a Liebert ITA2 Battery Cabinet?

The Vertiv™ Liebert® ITA2 battery cabinet provides DC input power to the Liebert ITA2 UPS. The battery cabinet may be installed in a rack or tower configuration, and a maximum of five battery strings can be connected to the UPS. When introduced, the battery cabinet was 3U height (U = rack units).

How do I connect a battery cabinet to a power system?

Procedure 1. Furnished with the battery cabinet are battery disconnect circuit breaker alarm lead assemblies. Refer to the power system installation manual to use these alarm leads to connect the battery cabinet battery disconnect circuit breaker alarm into the power system alarm circuits.

How many Battery strings can be connected to a ITA2 ups?

The battery cabinet may be installed in a rack or tower configuration, and a maximum of five battery strings can be connected to the UPS. When introduced, the battery cabinet was 3U height (U = rack units). Later, to reduce the rack space required by a Liebert ITA2 UPS system, the battery cabinet was replaced by a 2U cabinet.

How do I install a VDC battery cabinet?

Set first battery in cabinet and attach the long lead (fast-on connector side marked positive) from the cabinet to the fast-on terminal on the positive terminal of the battery. See Figure 24.
