# Acquisition of companies providing wind-solar complementary services

Why is the solar energy industry undergoing mergers & acquisitions?

The solar energy sector has experienced a dynamic landscape of mergers and acquisitions (M&A) over the past decade, reflecting the industry's rapid growth and evolution. M&A activities in this sector are frequent, driven by factors such as market consolidation, technological advancements, and strategic expansions.

Why did TotalEnergies acquire Core Solar?

In early 2024, TotalEnergies acquired a 2.5 GW solar and storage portfolio from Core Solar for an undisclosed amount. This acquisition aligns with the company's broader strategy to expand its renewable energy footprint in North America.

Who owns Big Sky Solar in Canada?

Big Sky Solar in Canada. Image: TotalEnergies. The French energy company finalised the acquisition of European wind and solar developer VSB Group, adding 500 MW of installed or under construction capacity and a pipeline of more than 15 GW of solar and wind projects.

Who owns BP Wind Energy?

Upon completion of the acquisition, bp Wind Energy will be owned and operated as part of LS Power portfolio company Clearlight Energy, which focuses on renewable power generation in the US and Canada.

This paper develops a capacity optimization model for a wind-solar-hydro-storage multi-energy complementary system. The objectives are to improve net system income, ...

China has made considerable efforts with respect to hydro- wind-solar complementary development. It has abundant resources of hydropower, wind power, and solar ...
