
Addis Ababa solar Module Industrial Park Project

Why did Ethiopia choose a solar project?

The project location is a strategic choice influenced by Ethiopia's favourable investment policies, tariff exemptions and hydropower resources. The chosen site will undergo modifications to accommodate a modern, automated solar cell production line.

Will Toyo solar build a solar cell factory in Ethiopia?

Addis Ababa October 14/2024 (ENA)-TOYO Solar has signed a Memorandum of Understanding (MOU) with the Ethiopian Investment Commission (EIC) to invest 60 million USD (close to 7 billion Birr) to establish its first solar cell manufacturing factory in Ethiopia.

Does Ethiopia have a tariff exemption for bifacial solar cells?

Ethiopia has been granted a tariff exemption for bifacial solar cells under Section 201 of the US Trade Act 1974. TOYO CEO Junsei Ryu stated: "Establishing this manufacturing plant is a key step in our strategic vision to diversify our supply chain and enhance our sourcing capabilities for solar solutions in the global market.

Where does Ethiopia's electricity come from?

Approximately 90% of Ethiopia's electricity generation comes from hydropower, with wind contributing 8% and thermal sources accounting for the remaining 2%.
