

Ankara solar container lithium battery pack processing factory

Why is LG Energy Solution returning to Turkey?

The agreement marks LG Energy Solution's return to Turkey following the cancellation of a previously planned joint venture with Ford Otosan. This earlier initiative, which aimed to produce battery cells in Ankara, was abandoned in early 2023 due to concerns about the pace of electromobility adoption.

Will go Enerji be made in Turkey?

Gökhan Yıldız, Chairman of GO Enerji, highlighted at a press conference that the factory will operate under the 'Made in Turkey' label, serving both domestic demand and LG Energy Solution's global customers. This includes exports to Europe, Africa, and the Middle East.

How many GWh can a battery pack produce in 2026?

These battery packs will be used in electric vehicles and stationary applications. The factory is scheduled to open as early as the second quarter of 2026 and will initially operate with a production capacity of 2.5 gigawatt-hours (GWh). Within two years, the facility's capacity is expected to increase to 7.5 GWh.

What electric vehicles are being made in Turkey?

Meanwhile, Turkey is actively fostering an ecosystem for electric vehicle manufacturing: the Ford e-Transit, the Ford e-Transit Custom, and the electric VW T7 are already being produced in the country, alongside domestic Togg vehicles. BYD also plans to manufacture electric vehicles in Turkey soon, and Hyundai will follow suit.

Ankara, Turkey's capital city, sits smack in the heart of the country. While often overshadowed by Istanbul's dazzling or Cappadocia's surreal landscapes, Ankara has its own understated charm, ...

Ankara, city, capital of Turkey, situated in the northwestern part of the country. It lies about 125 miles south of the Black Sea, near the confluence of the Hatip, Ince Su, and ...

Ankara is the capital of Turkey, central within the country on the plateau of Central Anatolia. It's a sprawling modern place around an ancient citadel, and in 2022 had a ...

With the help of this 2025 Ankara guide, find the top attractions and best things to do in Ankara, including its historical sites, regional food, lively neighbourhoods, and undiscovered treasures.

You know, Ankara's been quietly becoming a hub for energy storage battery imports - over 47% of Turkey's lithium-ion battery shipments entered through the capital in Q2 2024 alone.

A new 1GWh lithium iron phosphate (LFP) battery factory in Turkey serving the energy storage system (ESS) market will start production in Q4 2022, said Pomega Energy Storage ...

Achieve high efficiency and safety in energy storage with Solinved lithium battery production. Discover long-lasting and efficient solutions for solar energy, electric vehicles, and industrial ...

Explore Turkey's capital with our Ankara travel guide. Discover Ataturk's Mausoleum, top museums, and the rich history and culture of this vibrant city.

South Korean battery manufacturer LG Energy Solution and Turkish energy company GO Enerji have agreed to jointly establish a production facility for battery packs in ...

Understanding Ankara's Energy Storage Revolution Let's face it - when you think of cutting-edge energy tech, Ankara might not be the first city that springs to mind. But lithium battery energy ...

This project will involve an initial investment of EUR45 million and is scheduled to commence operations in the second quarter of 2026 GO Enerji, a Turkish engineering and ...

GO Enerji and LG Energy Solution will invest EUR45 million to build a battery pack assembly plant in Ankara by Q2 2026, starting at 2.5 GWh capacity and rising to 7.5 GWh ...
