
Arc flash switchgear for sale in Singapore

What arc flash mitigation solutions does Schneider Electric offer?

Schneider Electric offers a variety of arc flash mitigation solutions that make this possible, including switchgear, software, and circuit breakers for both passive and active arc flash protection. Our systems work in compliance with the National Fire Protection Association (NFPA) 70E: Standard for Electrical Safety in the Workplace.

What arc flash mitigation solutions are available?

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power Defense molded case circuit breaker, Insulgard, arc flash relays and more.

What are arc flash accidents?

Arc flash accidents in electrical installations are severe, resulting in damages, fire, and injuries. Ensure electrical safety at your workplace with our arc fault protection solutions. We distribute ABB arc flash safety devices.

What is an arc flash?

An arc flash is an electrical accident that creates a high-temperature explosion. It can vaporize surrounding metal, set fires, and result in severe burns. Although rare, arc flashes can have grave consequences so you need to ensure your people and site are always protected.
