
Belize Solar Electric System Assembly

Who is Sun's Electric?

Sun's Electric, with over 18 years experience offers design, installation, monitoring, maintenance, and repair of grid tied and off grid solar PV systems by a licensed electrician. In Belize from a concept to a reality, our solar electrical systems are designed and backed by 18 years of industry experience.

Why did SESB switch to solar power?

“Our main branch recently switched to solar panel power, which we think is a really smart step forward for multiple reasons; the obvious one being that we don't have to pay so much for power, but also for the green effect on the environment. SESB made sure the installation was painless and professional.”

What is the economy of Belize?

Background and Context Belize is a country in Central America, with a population of approximately 430,191 as of 2022. Its economy is highly dependent on tourism, agricultural exports, and energy imports, making it vulnerable to external economic shocks and fluctuations in interna

Does SESB offer solar air conditioners?

With an SESB grid-tie solar system all your household appliances, including your air conditioner, are powered by solar during the day. SESB does not provide solar powered air conditioners. Will it make sense to disconnect from BEL grid and go completely solar off-grid?
