

# Black Mountain Energy Storage Project Connected to the Grid

Who is Black Mountain Energy Storage?

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline development of utility-scale energy storage solutions.

Who are Peregrine Energy Solutions & Black Mountain Energy Storage?

Peregrine Energy Solutions is a limited liability company formed in Delaware and headquartered in Boulder, Colorado\*. Black Mountain Energy Storage is a team of energy experts who develop and operate battery energy storage facilities. Peregrine Energy Solutions is the company, while Black Mountain Energy Storage is the team.

What makes Black Mountain a great partner?

Black Mountain has been an exceptional partner to work with and we are excited to throw our development, EPC and financing expertise behind these assets to move them across the finish line, affirming our commitment to developing resilient renewable energy resources throughout Texas.

The newly acquired BESS will be built in two phases in Eastern Oklahoma to support multiple data centres already operational or ...

GridStor has acquired a battery storage project in Oklahoma, totaling 200 MW / 800 MWh to be developed in two phases, from Black Mountain Energy Storage (BMES). GridStor's ...

PORTLAND, Ore. - January 16, 2025 - GridStor, a developer and operator of utility-scale battery energy storage systems, announced today that it ...

The newly acquired BESS will be built in two phases in Eastern Oklahoma to support multiple data centres already operational or in development in the area. Image: ...

Goldman Sachs-backed battery storage developer GridStor has acquired a 200MW/800MWh project in Oklahoma, US, from Black ...

The Renova-Himeji Battery Energy Storage System is a 15,000kW lithium-ion battery energy storage project located in Himeji, Hyogo, Japan. The rated storage capacity of the project is. . .

GridStor, a leader in utility-scale battery energy storage systems, has announced the acquisition of a 200 MW / 800 MWh battery storage project in Oklahoma from Black ...

Black Mountain Energy Storage is a team of energy experts who develop and operate battery energy storage facilities. We were founded in 2021 to bring reliable energy storage capacity to ...

Our projects contain flexible assets tactically positioned at points of persistent grid congestion and volatility.

Black Mountain Energy Storage (BMES), founded in 2021, has sold standalone BESS projects across the US after early development work. The project, Bufflehead BESS, ...

GridStor has acquired a 200MW / 800MWh battery storage project in the US state of Oklahoma from Black Mountain Energy Storage.

---

US energy storage company GridStor announced the acquisition of a 200-MW/800-MWh battery energy storage system (BESS) ...
