How many kW VFD inverter?

Favorable price 3.7 kWvfd inverter,3 phase variable frequency drive 220V,380V,480V. Input frequency 50Hz/60Hz,output frequency 0~1000Hz,current vector control, and V/F control mode for 3 phase motor speed control.

What is a frequency inverter?

Frequency inverters are electronic devices that create an AC voltage with variable frequency from an AC voltage with fixed frequency (e.g. 50 Hz). They are usually installed between the supply network and an electric motor so that its speed can be controlled steplessly and precisely and so that its energy consumption can be optimised.

How many Hz is a 3 kW inverter?
