
Canberra Off-Grid Solar Container Exchange

Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

Can GES energy install an off-grid Solar System?

Our in-house, SAA-accredited off-grid solar specialists can supply, design and install an off-grid system for you, even if you're located in an isolated area without access to the local grid. With GES Energy on your side, you can have peace of mind knowing that your off-grid system will be installed correctly.

What is a containerised Offgrid system?

Power where the grid can't go -- delivered in a single, rugged container. MyEnergy designs and builds turnkey off-grid systems inside 10-, 20- or 40-foot containers, pre-wired, factory-tested and ready to run the moment they land on site. What is a containerised off-grid system?
