
Cape Town Battery Factory Container Base Station

How will a new battery plant help South Africa?

The new facility will help the company - which designs, engineers, and manufactures lithium ferro-phosphate smart batteries used in a wide range of industries - take its cutting-edge technology to the world, while continuing to power South African industry towards a cleaner future.

Who owns the Red Sands battery energy storage system?

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, which is 30% owned by Norfund, in partnership with African Rainbow Energy, the 153 MW/612 MWh project was signed off in June 2025 in Cape Town.

Who owns 153 MW & 612 MWh in South Africa?

Developed by Globeleq, which is 30% owned by Norfund, in partnership with African Rainbow Energy, the 153 MW/612 MWh project was signed off in June 2025 in Cape Town. It will be located in South Africa's Northern Cape Province and occupies a five-hectare site.

Where are balancell batteries made?

Balancell's lithium ferro-phosphate batteries are designed, engineered, and produced in South Africa. The batteries use almost exclusively local components, making them a truly South African innovation.

Energy storage company Balancell has cut the ribbon on its new R80-million assembly plant in Ndabeni, Cape Town. The lithium ferro-phosphate battery assembler's ...

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, ...

South Africa's clean energy looks bright as Balancell unveiled its new state of the art Gigafactory in Ndabeni with a ribbon cutting ceremony by the Deputy Minister of Trade and ...

The Cape Town energy storage battery factory directly addresses one of renewable energy's biggest challenges: intermittency. Solar panels don't work at night, and wind turbines stall in ...

Energy storage company Balancell has cut the ribbon on its new R80-million assembly plant in Ndabeni, Cape Town. The lithium ferro ...

The company has moved into the new R80-million factory in Ndabeni, Cape Town so as to gear up to grow its capacity roughly tenfold. The lithium ferro-phosphate battery assembler's ...

At the opening of the new Balancell state-of-the-art Gigafactory in Cape Town Deputy Minister of Trade, Industry and Competition, Mr Andrew Whitfield highlighted the importance of building a ...

Swedish energy storage specialist Polarium has opened a lithium-ion battery assembly plant in Montague Park, Cape Town. The facility is the group's third in the world, with a plant each in ...

Base station energy storage lithium iron battery From a technical perspective, lithium iron phosphate batteries have long cycle life, fast charge and discharge speed, and strong high ...

Updated 1st July 2025 - The Red Sands Battery Energy Storage System ...

Powering growth through investment New battery facility opened SOUTH AFRICA: Representing an investment of some R150 ...

Balancell unveils R150-million Gigafactory to fuel South Africa's battery market By Larry Claasen
BALANCELL, a pioneer in energy storage technology, officially opened its ...
