# China lithium power station factory company

Who manufactures lithium batteries in China?

EVE Energy Co., Ltd. EVE Energy Co., Ltd., founded in 2001, is a major Chinese lithium battery manufacturer. The company researches, develops, and manufactures various battery technologies, such as lithium-ion and primary lithium batteries.

Which country produces the largest lithium battery production base in the world?

As the largest lithium battery production base in the world, China has produced several leading manufacturers who are driving the global energy revolution with technological innovations and market expansion.

What makes the Chinese lithium battery industry unique?

The Chinese lithium battery industry combines decades of manufacturing experience with cutting-edge innovation, offering solutions that span from ultra-thin 0.5mm batteries to heavy-duty industrial systems capable of operating at -30°C.

Which countries dominate the lithium-ion battery market?

China dominates the global lithium-ion battery market, supplying ~70% of worldwide capacity and housing innovation leaders driving the energy transition. From EVs to grid-scale storage, these manufacturers combine cutting-edge tech, massive scale, and aggressive global expansion. Here are the top 15 shaping the future:
