Do you need a 200 amp breaker in British Columbia?

According to the Electrical Safety Authority, over 70% of new homes in British Columbia opt for 200-amp panels. Who needs this much juice? Big homes, rural properties, or folks with serious electrical needs--that's who. A 300 or 400-amp main breaker is like giving your electrical systems a V8 engine.

What is a 15 amp circuit breaker?

A 15 amp circuit breaker is a standard residential circuit breaker that can handle up to 15 amps of electrical current before tripping. These are typically used for general lighting circuits and outlets.

What is a 200 amp breaker panel?

A 200-amp breaker panel is the gold standard for most modern Canadian homes. Advancements in circuit breaker technology, especially the 200-amp breaker panel, meet modern electrical demands from various appliances and systems. It's got the muscle to power your entire house, from washing machines to GFCI breakers protecting your bathroom outlets.
