
Czech mobile power station generator

How will the Czech government support new generating stations?

The support of new generating stations will also depend upon compliance with the Czech national action plan. 3.4.2 The Czech Promoted Energy Sources Act provides, inter alia, that subsidies paid to generating station operators will be predominantly in the form of green bonuses, and the repayment period for investments is 15 years.

Who owns a coal-fired generating station in the Czech Republic?

Several producers including EP Energy, Sokolovská uhelná, Litvínovská uhledná, Alpiq, and Dalkia, also own and operate coal-fired generating stations in the Czech Republic with a total installed capacity exceeding 300MW. A list of entities holding electricity generation licences is available on the ERO's website 2 .

What is a prime power mobile power station?

" PRIME POWER" mobile power station contains vehicle-type and trailer-type. It can be used in outdoor operation, project repairing work, and emergency rescuing. As high-mobility power, it can respond to the emergency quickly and reach the work site the first time needed, providing continuous stable power.

Why are mobile power stations so popular?

The unique and special design of vehicle-type and trailer-type gensets make the operation user-friendly. The production of large quantity of mobile power stations which have received the customers' recognition make its technology more mature.
