

# EU DC Uninterruptible Power Supply EK

What is an uninterruptible power supply (UPS)?

Uninterruptible power supplies (UPS) protect the 24 V supply voltage against unexpected power failures. In the BLOCK portfolio, capacitive UPS solutions provide 24 V DC power supply for up to several minutes. Equipped with ultracapacitors, these solutions are designed for long service life and operation in demanding temperature ranges.

Which batteries are used in a decentralised UPS system?

Maintenance-free supercaps, long-life and safe LiFePO4 and lithium-ion battery packs, or classic lead-acid batteries are used. Our decentralised UPS systems provide effective protection against power failure, flicker, fluctuation, or voltage dips in DC power supplies.

What is an uninterruptible combined UPS system?

The uninterruptible combined UPS units include an economical 24 V DC switched mode power supply with an integrated charge and control unit for optimal battery management. These space-saving combined UPS systems control and monitor the connected battery modules, providing early warnings when battery life expectancy is low.

What is a capacitive ups based on ultracapacitors?

The capacitive UPS based on ultracapacitors provide the highest level of system availability in the field of 24 V DC uninterruptible power supplies. With a broad portfolio designed for various requirements and applications, they ensure uninterrupted power supply with currents of up to 40 A in the event of a power failure.

Commission Regulation (EU) 2019/1782 of 1 October 2019 laying down ecodesign requirements for external power supplies pursuant to Directive 2009/125/EC of the European Parliament and ...

Uninterruptible DC emergency power supply for fail-safe systems in industrial and medical applications Our DC UPS systems for 12?V / 24?V / 48?V provide an uninterrupted power ...

Uninterruptible Power Supplies (UPS) Filter by Type DIN-rail mounting 2 Input-Output type DC-DC 2 Products S8BA Integrated battery type S8BA Separated battery type

Uninterruptible Power Supply EK 10KVA 3/3 Elevator Motor UPS MINI DC UPS 8800mah 3/1 10Kva double conversion ups 1/1 phase 220V 2U 1Kva Smart Online UPS 24V 3000W ...

Product Energy Efficiency - External Power Supplies. The rules apply to both the active efficiency and the no-load power consumption. Active efficiency ...

The European UPS market is a dynamic arena, where established players face constant challenges from innovative newcomers and evolving market trends. To navigate these ...

Uninterruptible DC emergency power supply for fail-safe systems in industrial and medical applications Our DC UPS systems for 12?V / 24?V / 48?V ...

Uninterruptible Power Supply EK 10KVA 3/3 Elevator Motor UPS MINI DC UPS 8800mah 3/1 10Kva double conversion ups

Uninterruptible Power Supplies (UPS) Filter by Type DIN-rail mounting 2 Input-Output ...

---

The draft Commission Regulation proposes new ecodesign requirements for External Power Supplies (EPS), Battery Chargers for portable batteries, Wireless Chargers, Wireless Charging ...

The reliable DC-UPS from PULS ensure highest system availability. The uninterruptible power supplies are available with capacitor storage or VRLA batteries.

Product Energy Efficiency - External Power Supplies. The rules apply to both the active efficiency and the no-load power consumption. Active efficiency is the average efficiency when a power ...
