# Energy storage field investment plan

What is the "Special Action Plan" for new energy storage?

The 'Special action plan for large-scale construction of new energy storage (2025-2027)' was published last Friday (12 September), formulated jointly by the country's National Development and Reform Commission and National Energy Administration (NEA).

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

What is the energy storage plan?

The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, and improving standardization. It also emphasized talent development and enhancing international cooperation in the sector.

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

China's industrial and commercial energy storage is poised for robust growth after showing great market potential in 2023, yet critical ...

The Office of Electricity's (OE) Energy Storage Division accelerates bi-directional electrical energy storage technologies as a key ...

Energy storage investment layout plans encompass a strategic design toward enhancing grid reliability and facilitating the transition to renewable energy sources.

China has published plan to promote large-scale energy storage facilities, encouraging investment and electricity market participation.

The underlying motivation for DOE's strategic investment in energy storage is to ensure that the American people will have access to energy storage innovations that enable ...

The National Development and Reform Commission and the National Energy Administration issued the "Special Action Plan for Large-Scale Construction of New Energy Storage ...

Why Energy Storage Batteries Are the New Gold Rush Imagine a world where your morning coffee maker doubles as a power bank for your entire neighborhood. While we're not quite ...

Utility-scale five-year forecast increases 15% compared to H1 2025 5.3 GW installed in Q3, 31% YOY growth Utility-scale leads with 4.6 GW, 27% YOY growth WASHINGTON, ...

The Clean Energy Council, Australia's peak body for the sector, welcomed the 2025-26 GenCost report released today calling it the most comprehensive electricity cost ...

---

As investment in renewable energy generation continues to rise to match increasing demand so too does investment, and the opportunity to invest, in energy storage. Estimates ...

Ford plans to produce LFP batteries using technology licensed from China's CATL, as well as battery energy storage system modules and 20-foot DC container systems at this facility.

A firm choosing to invest in energy storage technology is equivalent to executing the value of the investment option . In this study,the investment opportunity value of an energy storage ...
