

# Energy storage project and factory cooperation

How can China improve international cooperation in the energy storage sector?

To beef up international cooperation in the new-type energy storage sector, China will work to incorporate collaboration in the field into international cooperation mechanisms and frameworks such as the Belt and Road Initiative and BRICS and promote mutually beneficial cooperation on industrial and supply chains.

Is Tesla's Shanghai megafactory a good example of cooperation?

An aerial drone photo taken on Dec 15, 2024 shows a view of Tesla's megafactory in east China's Shanghai. [Photo/Xinhua] SHANGHAI -- US carmaker Tesla's Shanghai energy storage Megafactory has begun trial production, serving as a good example of cooperation between China and the United States to address climate challenges.

How will Tesla's Energy Storage megafactory benefit Shanghai?

"It will enhance grid flexibility and help integrate renewable energy in the Lingang New Area, supporting Shanghai's seasonal power demands and regional energy security," Dong said. Construction of Tesla's energy storage Megafactory started in May 2024.

When was Tesla's Energy Storage megafactory built?

Construction of Tesla's energy storage Megafactory started in May 2024. It became operational in February 2025, and started exporting products to Australia the following month. The energy storage Megafactory is the first of its kind built by Tesla outside the US and the company's second plant in Shanghai.

Prague, Czech Republic, December 2025 -- AlphaESS, a global leader in energy storage solutions and a BloombergNEF Tier 1 ...

According to the agreement, this energy storage project will use lithium iron phosphate batteries produced at EVE Energy's Jingmen factory. It is planned to be officially ...

Prague, Czech Republic, December 2025 -- AlphaESS, a global leader in energy storage solutions and a BloombergNEF Tier 1 certified manufacturer for Q4 2025, has formally ...

On December 16, Trina Storage announced it will further expand its strategic partnership with Lightshift Energy, a U.S.-based developer, builder, and operator of energy ...

For this facility, the company will use batteries coming from Tesla's Shanghai Megapack factory, launched earlier this year. The plant ...
