
Epcube home energy storage

What is EP Cube storage?

EP Cube's storage uses safer LiFePO4 batteries, and meets the UL 9540A unit level test performance criteria, effectively preventing thermal runaway and ensuring stabler overall performance and a longer service life. EP Cube's storage adopts stackable design to allow you to flexibly and quickly add modules according to actual needs.

How much energy does the EP Cube consume?

consumption.. Easy to install and small in size, the EP Cube is safe and reliable and comes with remote control for managing energy capacity at your discretion. Modular battery system makes transport and installation easy. Capacity options from 6.6 kWh to 19.9 kWh.

What is EP Cube hybrid inverter?

The EP Cube hybrid inverter allows up to 16A per PV string current, and supports up to 4 MPPT connections, enabling greater PV panel connectivity so as to transform more solar energy into electricity for energy storage. EP Cube helps you store electricity from the grid when the price is lower, reducing costs and realizing automatic storage.

What is the EP Cube?

The EP Cube is a flexible and intelligent all-in-one home energy storage solution for new and existing solar installations. With unrivalled flexibility and intelligent software management, it is designed to offer a quick and easy installation, simplified logistics, and cost-savings all round to make life easier for homeowners and installers.

Collaborate for free with online versions of Microsoft Word, PowerPoint, Excel, and OneNote. Save documents, spreadsheets, and presentations online, in OneDrive.

EP CUBE PRODUCT INTRODUCTION EP Cube is a flexible and intelligent residential energy storage system intended for smart management of solar power generation ...

Canadian Solar's residential energy storage solution, EP Cube, is taking smart home energy management to the next level with direct integration into Home Connect-enabled BSH ...

EP Cube Wins Japan's Prestigious Good Design Award, Leading the Future of Home Energy Storage with Exceptional Design Today, Canadian Solar's residential energy ...

EP CUBE PRODUCT INTRODUCTION EP Cube is a flexible and intelligent home energy storage system intended for smart management of solar power generation and ...

Whole Home Backup Solution EP Cube stores excess solar energy during the day for later use, helping you save on electricity bills. In a power outage, it automatically powers your entire ...

With the EP Cube App, you can customize system behavior, remotely manage the production, storage, and usage of home energy in real time, and access online assistance.

Cost-saving With all-in-one design, EP Cube makes big savings in terms of the time and cost of installation. The device stores and uses clean PV electric energy which ...

Founder, CEO of EPCube · Andy Yin has more than 20 years of experience in the energy storage

industry, including residential, commercial, ...

EP Cube Partners with Home Connect to Optimize Household Energy Consumption Canadian Solar's residential energy storage solution, EP Cube, is taking smart home energy ...
