## Georgia high-efficiency solar panel manufacturer

Who makes Suniva Solar cells?

About SunivaSuniva is the leading American manufacturer of high-efficiency crystalline silicon photovoltaic (PV) solar cells. The company is known for its high-quality products, industry-leading technology, reliability, and high-power density. Headquartered in metro-Atlanta, Georgia, Suniva sells its advanced PV cells globally.

Where are solar panels made?

Some U.S.-based solar panel manufacturers with modules made from components produced entirely in the country, such as Arizona-based First Solar, are opening new sites in the country. The company announced its plans to build its fifth U.S. factory for \$1.1 billion in July.

What is the largest solar plant in the Western Hemisphere?

The South Korea-based company called the facility the largest of its kind in the Western Hemisphere and the first expansion of a solar panel plant since the Inflation Reduction Act was passed. The expansion is part of a \$2.5 billion manufacturing investment from Qcells into the Dalton site and an upcoming factory in Cartersville, Georgia.

Will solar cell manufacturing bolster us energy independence?

"The solar cell is the essential component in solar energy generation. Today's announcement is the first step in rebuilding solar cell manufacturing in the United States, which will bolster our country's energy independence and security" said Matt Card, President and Chief Operating Officer of Suniva.
