

Germany's new wind and solar energy storage project

Does Germany have a solar-plus-storage innovation tender?

Image: Baywa r.e. The German Federal Network Agency (Bundesnetzagentur) has awarded 587MW of solar-plus-storage in its latest Innovation Tender. As has been the case in many of Germany's recent solar PV auctions, the Innovation Tender ended up oversubscribed, with 154 bids made for 1.8GW of capacity out of 583MW tendered capacity.

What are Germany's most anticipated solar projects?

1. Verbund Visiolar Germany solar PV park The Verbund Visiolar solar PV park is a sizable project planned near Berlin, with a capacity of 2,000 MW. This solar plant will span 3,459 acres at first, with plans to expand further across 49,421 acres. Its sheer scale makes it one of Germany's most anticipated solar projects.

Why is Germany investing in solar energy?

Find out how Germany is investing in large solar projects to help achieve its 2030 target of generating 80% of its electricity from renewable sources. What's next for solar energy in Germany? Germany is steadily advancing toward its 2030 target of generating 80% of its electricity from renewable sources.

What's going on with Germany's "Weida-Land Energy Network"?

A new project in Germany will see the phased installation of a massive 500 MW / 1750 MWh battery energy storage system, and a new AI data center, all set to be developed by 2028. Major plans are underway in the Saxony-Anhalt, Germany, with preparations for the ambitious "Weida-Land Energy Network" moving forward at full pace.

Acceleration areas and shortened approval procedures are intended to ensure faster expansion of wind and solar parks as well as energy storage at the same locations. The ...

Acceleration areas and shortened approval procedures are intended to ensure faster expansion of wind and solar parks as well as ...

Canadian Solar's e-STORAGE division secured a 20.7 MW / 56 MWh battery energy storage project in Germany with a 20-year service contract, reinforcing the company's ...

ABO Wind is an experienced designer and developer of wind and solar farms. An mtu EnergyPack QG Battery Energy Storage Solution (BESS) was installed for their new plant ...

With investments pouring into solar projects, grid upgrades, and local job programs, the region is transitioning from coal to cleaner energy sources. This change not only ...

Global renewable energy company BayWa r.e. and Ampt, the #1 DC optimizer company for large-scale photovoltaic (PV) systems, ...

A co-located solar PV and battery storage project in Germany. Image: Baywa r.e. The German Federal Network Agency ...

Deutschland beschleunigt seine Energiewende massiv. Im Jahr 2026 werden bahnbrechende Projekte im Bereich Solar, Wind und Speicher realisiert. Diese 16 Green ...

A new project in Germany will see the phased installation of a massive 500 MW / 1750 MWh battery energy storage system, and a new AI data center, all set to be developed ...

Global renewable energy company BayWa r.e. and Ampt, the #1 DC optimizer company for large-scale photovoltaic (PV) systems, announce the successful deployment of a ...

EnBW has inaugurated an integrated energy park in Baden-Württemberg, Germany, that combines solar power, wind power, and ...
