
High-power solar module prices

How much does a photovoltaic module cost?

Mainstream Modules: Average price of EUR0.11/Wp, stable compared to September but 21.4% lower than January 2024. Low-Cost Modules: Average price of EUR0.065/Wp, a 7.1% decrease from September and 27.8% from January 2024. These trends are exerting mounting pressure on the photovoltaic sector.

How much does a solar module cost in 2025?

Specifically, in August 2025, the Price Index showed: about EUR0.055/Wp for low-cost photovoltaic modules, unchanged from July prices. "Manufacturers are moving quickly to end the devastating price war. The Chinese government is gradually phasing out tax incentives and subsidized solar module exports.

How much does a full black solar module cost?

Full black high-efficiency solar modules of up to 22.5% efficiency saw their price increase by 3.7% MoM and 7.7% since January 2025 to EUR0.14 (\$0.15)/W. According to pvXchange, prices for mainstream PV modules with up to 22.5% efficiency improved to EUR0.115 (\$0.12)/W, representing an increase of 4.5% over February and 9.5% over January 2025.

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

Comprehensive guide to solar module prices in 2025. Current costs, market trends, buying strategies, and price forecasts. Updated with ...

Expected installation rush in China driving up solar module demand and prices, according to pvXchange
Module shortages are foreseen, especially in high-power classes and ...

Others, however, foresee a price decline after the May 31 deadline under the aforementioned China's new power tariff policy, as announced by the National Development ...

China's latest tender results show the spot price of n-type modules increasing from RMB0.7/W to as much as RMB0.75/W.

PRICE INDEX | October 2025 Photovoltaic Price Index Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate ...

Discover high-efficiency photovoltaic solar panels with 23% module efficiency, CE/TUV certified, ideal for residential and commercial systems.

The U.S. Department of Energy's solar office and its national laboratory partners analyze cost data for U.S. solar photovoltaic systems ...

Updated photovoltaic module prices 2025: in August, high-efficiency solar panels fell to an average of EUR0.12/Wp in Europe.

As solar module prices continue to fall, pvXchange.com founder & Martin Schachinger explains how price pressure could ...

"Solar photovoltaic module price" [dataset]. IRENA, "Renewable Power Generation Costs in 2024"; Nemet, "Interim ...

Almost all leading solar module suppliers have now unveiled PV modules above 500 W. These high-power modules use a combination of technology upgrades at the ingot, wafer, cell, and ...

Read more Global average price for solar PV modules 2016-2024 Published by Lucía Fernándeáz, Nov 28, 2025 The global price of solar photovoltaic modules averaged ****
