this article provides a list of the top 10 best inverter manufacturers in Australia, such as; Sungrow, Huawei, Delta, SMA, Fimer, GE Vernova, Sunways, Goodwe, Fronius, Enphase. Last Updated on December 15, 2024 by Joseph Australia is now one of the most promising markets for energy storage, with many large energy storage projects already in place.

Which solar inverter is best for Australia & New Zealand?

China's solar inverter manufacturer GoodWe has released its ET G2 Series in Australia and New Zealand, a 6-15 kW three-phase high-voltage hybrid inverter. The ET G2 is tailored to the Australian and New Zealand household market, offering features like smart load control, 100% unbalanced output, and streamlined installation.

How much does a Chinese inverter cost?

In terms of price, Chinese inverters generally provide a more budget-friendly option. You can often find reputable Chinese brands at a lower cost than their European counterparts. For example, while a Fronius inverter may range from \$1,500 to \$3,000, a Growatt inverter could cost between \$800 and \$1,500. Efficiency is another critical factor.

Who makes Sungrow solar inverters?

One off-site manufacturer is Sungrow Australia Group Pty. Ltd, which is part of Sungrow Power Supply Co., Ltd. The office of Sungrow Australia has been located in Sydney since 2012. Over the years, the company has grown rapidly. As a result, Sungrow Australia now has one of the largest solar inverter manufacturing teams in the country.
