
Hungary 5G solar container communication station battery project

How met group contributes to the energy transition in Hungary?

On site at the Dunamenti Power Station in Székesfehérvár, MET already installed a 4 MW /8 MWh demonstrator plant based on Tesla Megapack 2 batteries in 2022. With this latest BESS plant which went into operation today, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

How much solar power does Hungary have?

State secretary for energy transition of the Energy Ministry Viktor Horváth noted that Hungary had built more than 8,000 MW of solar capacity in the past 5-6 years and one-quarter of the electricity generated in the country came from renewable sources last year.

How much money will the battery energy storage project receive?

The battery energy storage project will receive a HUF 2.7bn grant from the European Union's Recovery and Resilience Facility (RRF) and HUF 5.6bn in investment incentive funds from the Ministry of Foreign Affairs and Trade, Peter Archibald Schubert, managing director of Mol Exploration and Production Hungary said.

Who makes Huawei battery storage units?

The investment is supported with over HUF 4bn from the European Union's Recovery and Resilience Facility (RRF). Huawei Technologies is manufacturing the battery storage units and the general contractor for the project is Forest-Vill. The transformer was made by Ganz. The MET Group had consolidated revenue of EUR 17.9bn last year.

Hungary has unveiled a significant new initiative to boost residential energy storage, allocating HUF 100 billion to subsidize home battery systems. The program is designed to help ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with ...

Hungary has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS). Located near ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into ...

Uniper powers Hungary's energy transition with two new solar projects Péter Kádery, President of the Hungarian Battery Association said: "We must strive by all possible ...

Uniper powers Hungary's energy transition with two new solar projects Péter Kádery, President of the Hungarian Battery Association ...

Met Duna Energiatársulat, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, has inaugurated a ...

Teplöre is proud to announce the successful commissioning of its first Battery Energy Storage System (BESS) project in Budapest, ...

The number of 5G base stations has reached 5.94 million, and the number of 5G users is over 1.87 billion.

To deal with the high energy consumption, telecom operators are ...

The Hungarian government says its new HUF 100 billion (\$305.4 million) program will support 10 kW home battery systems to boost solar self-consumption and cut evening ...

100% lower network tariff for storage devices with an in-built capacity above 0,5 MW with aFRR accreditation, only until end of 2026 Electricity producers do not pay network tariff ...

Teplore is proud to announce the successful commissioning of its first Battery Energy Storage System (BESS) project in Budapest, Hungary. This milestone marks a ...
