
Mauritania solar Module Project

How will Mauritania's new solar power project help agri-food industry?

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines. The project will also support value-creating activities, especially in the food cold chain and agri-food processing.

How does the PIEMM project work in Mauritania & Mali?

The PIEMM will boost solar energy production and provide access to electricity for more than two million people in Mauritania and Mali, while also enhancing regional integration and trade. The project is financed by a \$272 million loan from the African Development Fund, the concessional window of the AfDB, and a \$1.5 million grant from the GCF.

How much money does the AfDB give to Mauritania?

This is the largest financing ever granted by the AfDB to Mauritania. The second project, the project to strengthen productive and energy investments for the sustainable development of rural areas (RIMDIR), is a \$16 million grant from the Sustainable Energy Fund for Africa (SEFA), a multi-donor trust fund managed by the AfDB.

Who is Mauritania's AfDB?

The AfDB has been active in Mauritania for over 50 years, supporting various strategic development sectors, such as agriculture, governance, water and sanitation, energy, mining, private sector, transport, and social. Source: Zawya Motoni Olodun, with an illustrious seven years in marketing operations, stands as a beacon in the field.

The PIEMM project comprises the construction of solar power facilities and a 1,373-km, 600 MW high-voltage power line connecting ...

Mauritania's Minister of Energy and Petroleum, Mohamed Khaled, has unveiled an ambitious strategic project aimed at boosting the country's clean energy production capacity. ...

Summary: On 12 August 2025, Mauritania's Minister of Energy and Petroleum, Mohamed Khaled, announced a strategic renewable energy project with a total investment of \$287 million, aimed ...

The Mauritania-Mali Electricity Interconnection Project aims to enhance energy transmission between the two countries. The project will involve the construction of 1,373 km ...

The second project, RIMDIR, is a \$16 million grant from the Sustainable Energy Fund for Africa (SEFA) and concerns rural electrification for 40 localities in south-eastern ...

The authorities in Mauritania have obtained \$289.5 million of financing for two solar projects, including a \$272 million loan - the largest ever granted to the country by the African ...

The authorities in Mauritania have obtained \$289.5 million of financing for two solar projects, including a \$272 million loan - the largest ...

Mauritania and France signed a EUR39.2m deal to fund 10 solar power plants with battery storage to boost energy access and improve grid reliability.

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the

installation of hybrid mini photovoltaic power plants and the ...

Bluesun completes a large-scale 806 kWp + 125 kW×6 on-grid solar system in Mauritania, driving sustainable development, reducing carbon emissions, and promoting clean ...

Mauritania's Minister of Energy and Petroleum, Mohamed Khaled, has unveiled an ambitious strategic project aimed at boosting the ...

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini ...
