

Nanya solar container outdoor power manufacturer

Who owns Nanya Technology?

Nanya is conducting joint technology development with Micron Technology, working together on advanced DRAM manufacturing processes. In 2015, Nanya sold its share of the joint venture, called Inotera, to Micron. Taiwan-based Nan Ya Plastics, which is part of the Formosa Group, is the controlling shareholder of Nanya Technology.

Where are solar power plants made?

Headquartered in Shanghai with 50,000m^2+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container?

Deploy power in hours! Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.
