# New Zealand Auckland solar container battery Price Quote

How much does a solar battery cost in New Zealand?

The lowest price paid was \$8,000 for a 6 kWh battery, which implies that smaller systems can be more accessible for those on a budget. The best value was \$9,000 for a 9.6 kWh battery, equating to \$937.50 per kWh. Indicating the batteries below \$1000/kWh can be hunted down in the NZ market. What's Next for Solar Prices in 2025?

How much does a home battery cost in New Zealand?

Battery prices are coming down, but the upfront cost is still significant. On average, home batteries in New Zealand range from \$800 to \$1,200 per kilowatt-hour (kWh) of storage, depending on the brand and installation requirements.

How much does a solar battery cost?

Where PV capacity is zero, an inverter cost of \$1,500 and one-off fixed costs of \$310, covering the meter, inspection, and distributor fee, are added to the battery cost (as set out in Table 5). Historical retail battery costs have been roughly double the battery cost used at over 1,000 \$/kWh.

Are solar systems cheaper in New Zealand?

All you need to do is reach out to us. Since the end of 2024, the pricing of solar systems in New Zealand for grid-tied, commercial and off-grid solar has generally decreased. This is the result of lower costs of components from manufacturers and a more competitive market in New Zealand.

10kw solar system price comparison. Compare off grid solar versus grid tied battery storage in NZ. What's the best option for you?
