
Outdoor Power Control

Can you use a power strip outside?

Never Use Indoor Power Strips Outdoors While there are power strips that are designed for outdoor applications, unless your strip's packaging specifically says it's suited for outdoor use, it's not designed to stand up to weather and water. Keep it inside and find one you can use safely out in the elements.

What are outdoor power strips?

Outdoor power strips are a convenient and practical solution for anyone who wants to power multiple outdoor devices. These power strips are designed to withstand the elements, making them perfect for use in gardens, patios, or decks.

Are outdoor power strips a good investment?

Outdoor power strips are also equipped with safety features, such as waterproof covers and grounded outlets, to ensure that users can use them safely even in wet conditions. Overall, outdoor power strips are an excellent investment for anyone who wants to enjoy their outdoor spaces while keeping their devices charged and ready to use.

What is a waterproof outdoor power strip?

This waterproof outdoor power strip is designed with an all-round safety feature, including electric shockproof outlets, built-in overload protection, and heat-resistant ABS+PC material. It has 3 outlets compatible with both 2-pin and 3-pin U.S. standard plugs, and a 6.56 feet heavy duty extension cord.
