

# Price quote for a 10kW photovoltaic container used at an Indian airport

How much does a 10kW Solar System cost in India?

The 10kW solar system price in India ranges between INR 4.5 lakhs and INR 7 lakhs. This price range includes the solar panels, inverter, and other components required to set up the system, but it does not include the cost of batteries for off-grid systems.

How to reduce 10kW solar power plant cost in India?

You can get up to 25 years of performance warranty on solar panels. Other solar components like solar batteries and inverters come with a product warranty of 5-10 years. Subsidy: Households in India can reduce their 10kW solar power plant cost in India by availing subsidy.

Is a 10kW solar power plant a good investment?

Your savings depend on how much of your power demand is covered by your solar system in comparison to the upfront price of your 10,000-watt solar panel system in India. It's safe to conclude that the upfront cost of a 10kW solar power plant is an investment toward securing a much lower long-term energy cost for your home.

How does a 10kW Solar System work in India?

In India, if you have an on-grid 10kW solar system, you may qualify for net metering. This allows you to sell the excess electricity generated by your system back to the grid, earning credits that can be used to offset future electricity bills. Switching to solar power reduces your carbon footprint and contributes to a cleaner environment.
