
Recommendation of 12v inverter for camper

Do you need a 12 volt inverter?

Inverters are cool devices that turn 12 volt battery power into 110V or 220V AC power. Do you own an RV? Read our post on converters, inverters and inverter chargers [Do You Need A 12V Inverter?](#) Inverters are common for camper conversions but they are not necessary for every build.

What size campervan inverter do I Need?

We really like that this 12v inverter is a great product for small to medium-sized campervans and can run heavy-duty power appliances. Most campervan power needs do not need more than 1,500-2,000 continuous watts so this size inverter is perfect for the average van lifer.

Which campervan Power Inverter should I buy?

They are the only kind of campervan power inverter we recommend. Modified sine inverters have intervals in output, from maximum positive to the maximum negative value. To translate, due to the intervals in waveforms, these inverters are not great for appliances that need extra power to start, like motors, fridges, and relays.

What is the best RV inverter?

We found the Krieger 2000W as the best RV inverter for a reliable power solution on the road. It delivers smooth, continuous AC power up to 2000 watts from our RV battery. This allows us to run essential appliances, charge devices, and use power tools without issues. An LCD display makes it easy to monitor input voltage and output wattage.
