# Service Quality of Hotel Using 40-foot Folding Container

What is a seafold 40 HC container?

SeaFold 40' has the same features as a conventional 40' HC container. Requires no special handling or maintenance equipment. Safe and easy folding and erecting procedure. Compatible with all standard lift equipment found in most ports and terminals. Serviceable by existing maintenance organizations and depots throughout the world.

Why should you choose seafold?

SeaFold's unique 5:1 design creates 80% more storage and operating efficiencies at terminals, railheads, and ports. Reduces container lifts and container movements on ships, trucks, rail, and barges. Up to a 56% decrease in repositioning costs.

Why are empty container fleets important?

Due to global trade imbalance, approx., 20% of all ISO containers return empty to origination point. Empty containers take up invaluable space across all forms of intermodal transportation globally. Management of empty container fleets has become a significant cost. Increased international pressure to reduce CO2 emissions.

How many containers can be stacked on a rail car?

Improved rail and truck storage - 5 collapsed and bundled containers loaded onto a single truck or rail chassis. (subject to local weight restrictions). 10 units can be double stacked on a rail car. Capital investment recaptured in as little as 2.5 to 3 years depending on cost assumptions and number of turns container makes each year.
