
Slovakia Mobile Energy Storage Container Fast Charging

Are ultra-fast charging stations a significant contribution to electric mobility in Slovakia?

"The project of ultra-fast charging stations on motorways and expressways is a significant contribution to the development of electric mobility in Slovakia and directly contributes to the fulfilment of our international obligations," said Deputy Prime Minister and Minister of Economy of Slovakia Denisa Saková.

Who is funding Slovakia's ultra-fast charging station project?

The Government of Slovakia has approved the recipient for the national ultra-fast charging station (UFC) network project for electric vehicles. The project will be implemented by the state-owned company MH Invest, s.r.o., which will receive funding from Slovakia's Recovery and Resilience Plan, specifically under the Sustainable Transport component.

Will Slovak EV charging network expand?

Though the Slovak government does not specifically state this, the EV charging network expansion is in line with the European Alternate Fuels Infrastructure Regulation (AFIR).

How many fast-charging points will be installed in Slovakia?

State-owned company MH Invest will be in charge of installing a minimum of 228 fast-charging points in Slovakia along the TEN-T network. The undertaking will be funded by the Slovak government. (UPDATE BELOW)
