
Solar air conditioning price

How much does a solar air conditioner cost?

Solar-powered air conditioners are substantially more expensive than a conventional air conditioning unit, coming in at about \$2,000 before installation costs. Installation costs can bring the cost up to around \$5,000. Some popular solar air conditioners on the market include:

What is a solar air conditioner?

Solar air conditioners are solar-powered air conditioners designed to efficiently and effectively provide cooling to a room. Solar air conditioners use solar panels to power the air conditioner, and solar hotspot energy gives much power to the air conditioner's condenser and refrigerant.

How many square ft can a solar air conditioner cool?

The air conditioner can heat or cool up to 750 Sq. Ft (69 m²). It is a self-cooling air conditioner that requires no grid connection. This air conditioner operates on 100% solar power and does not require batteries, an inverter, or a charge controller. It also works on grid power when the best solar conditions are unavailable.

How much does a 1.5 ton hybrid solar air conditioner cost?

A 1.5 ton hybrid solar air conditioner is a new eco-friendly way to cool down your home. It is a great option for those who have medium or big size rooms between 120 sq. ft to 190 sq. ft. This system comes with a total of 2.5kW solar panels, 4kVA off-grid solar inverter and other standard accessories. The price of 1.5 ton hybrid AC is Rs. 1,39,000.
