

Southern Europe Containerized Generator Plant

What is a containerised modular power plant?

The containerised modular power plant is built to strict high-quality standards and accommodates ambient and heat temperatures, noise attenuation and adhere to site-specific requirements.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2, 3, 4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

The global containerized generator sets market, valued at \$835 million in 2025, is projected to experience robust growth, driven by increasing demand for reliable backup power ...

Discover PWR Reservkraftsbyggarna's containerised generators, offering portable and dependable backup power solutions for diverse industries ...

The containerized generators come fully loaded as standard, with all the sophisticated options you could ever need. We coupled 1MVA of predictable power, in standard 20-foot container; with ...

The global market for containerized generator sets is experiencing robust growth, projected to reach \$835 million in 2025 and maintain a Compound Annual Growth Rate ...

Our containerised power plant, which houses the MWM gas engine is manufactured in-house at our production facility in Lisburn, Northern Ireland. The containerised modular ...

Our containerised power plant, which houses the MWM gas engine is manufactured in-house at our production facility in Lisburn, ...

The containerized generator sets market is booming, projected to hit \$835 million by 2025, with a 5.4% CAGR. Driven by urbanization and renewable energy needs, this market ...

The global containerized generator set market size was valued at USD 15.5 billion in 2025 and is projected to reach USD 26.2 billion by 2033, exhibiting a CAGR of 6.5% during ...

Bespoke Containerised Generators Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super ...

Containerised generators designed to your exact requirements. Noise requirements, fire-safety, cabling, control interfaces and fuel solutions.

Power generation, cogeneration or trigeneration, we deliver high-quality containerized plants that are modularly designed to meet your project's unique requirements. Our plants support ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...
