
Temporary mobile power supply level 3 power box on construction site

What is Langsung mobile temporary power supply?

Langsung's Mobile Temporary Power Supply Device offers safe, efficient, and standardized power access for construction projects. Features 10.5kV voltage, up to 315kVA capacity, IP33 protection, and weather resistance. Reusable, hoistable, and seasonally independent--reduces project cost by up to 40%. Trusted by construction firms globally.

What is a temporary power box?

A temporary power box, also known as a power spider box, is a portable electrical enclosure that provides temporary electrical power distribution on construction sites and other remote locations. It serves as a hub for connecting various electrical loads and distributing power safely and efficiently.

What is a mobile temporary power supply device?

The Mobile Temporary Power Supply Device features a fully enclosed structure with a high protection rating, ensuring reliable safety. It comes with a built-in base, making installation convenient and unaffected by seasonal changes, allowing construction even in winter.

What is temporary power?

Temporary power is a short-term or nonpermanent power structure. It's a safe and reliable electricity supply for tools, lights and facilities for the duration of a construction project. The temporary electrical infrastructure is removed when the project is complete.
