
The first solar glass consortium

What is the partnership between First Solar & NSG?

First Solar and NSG share a long-standing strategic partnership. First Solar is focused enabling power generation needs with its thin film PV technology. NSG's TCO glass will be manufactured with an online coating technology. This technology allows for a conductive oxide to be formed on the glass surface during its passage through the float line.

Does Vitro Architectural Glass supply First Solar?

Vitro Architectural Glass is supplying First Solar with additional US capacity. In October 2023, it announced an expansion of its contract with First Solar and a plan to invest in a plant in Pennsylvania, as well as in adapting existing PV glass facilities.

Will NSG add TCO-coated glass to first solar?

In November 2023, NSG announced plans to add transparent conductive oxide (TCO)-coated glass capacity in Ohio to supply First Solar, with the move scheduled for early 2025. NSG has produced TCO-coated glass for thin-film PV for more than 25 years.

How long has NSG been producing TCO-coated glass for thin-film PV?

NSG has been producing TCO-coated glass for thin-film PV for more than 25 years. "Every year the solar market is bigger and bigger; more capital, more resources," said Stephen Weidner, who heads NSG's North American architectural glass and solar products groups. "We see this on a global basis." Glass for solar is becoming more significant.

With PV module capacity ramping up, glass suppliers have been investing in new solar glass production capacity. As in India and ...

Stewart Glass is establishing the first fully operational solar glass facility in the United States, opening March 2026 in Logan, Ohio. Producing 150 tons per day of 3.2 mm ...

"The Glioma Longitudinal Analysis Consortium" (Synapse ID: syn17038081) is a project on Synapse. Synapse is a platform for supporting scientific collaborations centered around shared ...

Stewart Glass is establishing what officials call the "first fully operational solar glass facility in the United States." The plant is scheduled to open in March 2026 in Logan, Ohio, ...

North American solar manufacturer First Solar and Vitro, a glass manufacturer, recently announced the expansion of their ...

The GLASS consortium intends to generate a longitudinal genomic/molecular dataset representing a large cohort of glioma patients across 3 specified ...

There is no way you can talk about solar panels without first talking about solar energy. Humans have been using energy from the sun long before modern solar companies started using ...

First Glass was well-represented at Glasstec 2024, the highly anticipated international trade show held in Düsseldorf, Germany, from October 25. The event, which ...

North American solar manufacturer First Solar and Vitro, a glass manufacturer, recently announced the expansion of their cooperation agreement. This will provide the glass ...

The only US-headquartered company among the world's largest solar manufacturers, First Solar is focused on competitively and reliably enabling power generation ...

Glass supplier company NSC Group has opened a solar glass production line to support CdTe thin-film PV manufacturer First Solar.

The investment will support the expansion strategy of First Solar, an American photovoltaic (PV) solar technology and manufacturing company. First Solar and NSG share a ...
