
Uninterruptible power supply for Senegal factory

What is a Mitsubishi Electric uninterruptible power supply (UPS) system?

Mitsubishi Electric uninterruptible power supply (UPS) systems provide daily power conditioning as well as backup power in the event of an outage to reduce damage to manufacturing equipment and maintain uptime for your production line.

Why do you need an uninterruptible power supply system?

Uninterruptible power supply systems can reduce downtime (and its cost) in manufacturing by providing reliable backup power in an emergency. A UPS allows your systems to shut down slowly, in alignment with standard procedures, as opposed to the rapid shutoff of an outage, which could damage the equipment.

Why should you buy a Fuji Electric UPS system?

Fuji Electric's high-efficiency UPS systems help to protect critical customer systems and data from power troubles while at the same time helping to improve the global environment by reducing CO2 emissions. Japan China Asia Icon means main region for sale. In case of other regions, please contact us.
