# Vienna home energy storage company

How can natural gas be stored in Austria?

Use of underground natural gas reservoirs is the safest and most efficient way of storing energy. Austria has geological structures that are ideal for gas storage. New supplies can be stored in these formations, where gas accumulated naturally over millions of years, at depths of more than 1,000 metres.

What types of energy storage systems does Sigenergy offer?

Sigenergy offers home battery storage, residential ESS, and commercial solar solutions. Explore our innovative energy storage systems for sustainable power management.

Who markets Rag energy storage?

Storage capacity at RAG's facilities is marketed by the company's subsidiary RAG Energy Storage. RAG has the necessary resources, infrastructure and know-how to actively drive forward development and the expansion of cutting edge, carbon neutral energy solutions based on green gas.

Why should you choose Rag energy storage facilities?

RAG's energy storage facilities are highly versatile. Their wide range of capabilities guarantees security of supply in Austria and Europe, and they hold the key to a green energy future.
