
Villa solar roof glass solar panels

Can a solar roof power a home?

Install Solar Roof and power your home with a fully integrated solar and energy storage system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more.

Can a solar roof be used with a Powerwall?

Combine your Solar Roof with Powerwall--a home battery featuring an integrated solar inverter for increased efficiency and dependable energy storage 24/7. With the Tesla app, you can monitor your energy production in real time. Control your system from anywhere with instant alerts and remote access.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Does solar roof have a warranty?

With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come. Our in-house team of energy professionals has installed nearly 4.0 GW of solar across approximately 480,000 roofs--cumulatively generating over 25.0 TWhs of clean energy. From design to power on, we take care of everything.
