## Warsaw 100 billion project solar panel manufacturer

How many solar projects has RWE been awarded in Poland?

RWE has been awarded 31 solar projects in Poland, with a combined capacity of 102 megawatts of direct current (MWdc), following the latest renewable energy auction held by the Polish energy regulator, Urząd Regulacji Energetyki (URE). This capacity translates to approximately 84 megawatts of alternating current (MWac).

How many solar projects are there in Poland?

Katja W&#252;nschel, CEO of RWE Renewables Europe & Australia, commented, "Securing these 31 solar projects is a significant achievement and reinforces our commitment to expanding solar energy in Poland. We already have 91 MWac of solar capacity operational in the country, with over 100 MWac under construction."

Where is a solar farm located in Poland?

The first project has now been commissioned. The Bojanowo East ground-mounted photovoltaic farm with a capacity of 8.5 MWac is located in the Wielkopolskie region in central Poland, where RWE has installed more than 17800 solar modules that are able to supply green electricity to more than 4,300 Polish households annually.

Who is RWE renewables Poland?

RWE Renewables Poland operates wind farms with a total installed capacity of 541 MW and a total solar capacity of 54 MWac, and is developing further green projects. Building on its long-established renewables business in Poland, RWE is currently developing its first Polish offshore project, which is the F.E.W. Baltic II offshore wind farm.

Around 40,000 ground-mounted photovoltaic panels will be installed in the municipality of Deszczno (Lubuskie voivodeship) in ...
