
Waterproof Folding Containers for Port Use in South America

What are the busiest container ports in South America in 2023?

With regions like Panama, Brazil, Mexico, and Colombia at the forefront, South America is increasingly pivotal in the international shipping landscape. As we can see in the following graph, the busiest container ports in South America in 2023 were the ports of Colon, Santos, Manzanillo, Cartagena and Balboa.

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.

Which companies are coming out with foldable containers?

Staxxon is another company that is coming out with foldable containers. This year, the US-based company operating out of New Jersey began trials of their foldable containers collaborating with freight vessels, road transport operators, and railcar companies.

When did foldable shipping containers come to light?

Business establishments and freight and transport operators got so used to rigid shipping box containers that foldable containers never came to light until about 2008. Imagine flat-packing your empty shipping containers and stacking them when not in use or during transportation.
