
Wellington Energy Storage Project Profit Model

Which energy storage products will Fluence provide for the Wellington Bess stage 1?

Fluence will provide its full suite of energy storage products, including Gridstack and Mosaic, for the Wellington BESS Stage 1. Image: Fluence. Renewable energy developer Ampyr Australia has reached financial close on its 300MW/600MWh Wellington battery energy storage system (BESS) Stage 1 in New South Wales.

Who is delivering the Wellington Stage 1 Bess project?

The project will be delivered by United States-based Fluence Energy, using its Gridstack energy storage product. Fluence has also entered into a 20-year operational service contract to service and maintain the Wellington Stage 1 BESS, with revenues to be optimised by the company's Mosaic and Nispera software platforms.

Who owns the Wellington Bess site?

Ampyr Australia purchased the remaining 50% in the Wellington BESS site from Shell Energy Australia in early February. This was for the project's first stage, comprising 300MW/600MWh BESS, whilst the second stage, already owned by Ampyr, will increase this by 100MW/400MWh.

When will the Wellington Bess be energised?

Stage 1 of the Wellington BESS is scheduled to be energised in 2026. Ampyr Australia has contracted Fluence, a battery storage system integrator and clean energy software and services company, to deliver the 600MWh Wellington BESS.

AMPYR secures financial close for 300MW Wellington Stage 1 battery storage project, advancing Australia's renewable energy transition.
