
Wellington Hybrid Solar Inverter System

What is a hybrid inverter?

Hybrid inverters are essentially two inverters in one; they combine a solar inverter and a battery inverter into one simple unit. These advanced inverters use solar energy to power your home, charge a battery or send excess energy into the electricity grid. Most hybrid inverters can also provide emergency backup power during a blackout.

Are hybrid solar inverters a good investment?

Hybrid solar inverters are no longer optional--they're essential for maximizing energy independence, reducing costs, and combating climate change. Whether you're a homeowner, business owner, or sustainability advocate, investing in a hybrid system is a smart move toward a greener, more resilient future. Ready to upgrade your energy system?

How do I choose a hybrid inverter?

When evaluating a hybrid inverter, it's important to inquire about these capabilities and how they can be customized to suit your needs and preferences. Jason Svarc is an accredited solar and battery specialist who has been designing and installing solar and battery systems for over a decade.

Is Sungrow a good hybrid inverter?

Sungrow SH-RS series is a very popular (single-phase) hybrid inverter due to its numerous features, wide variety of sizes, high pass-through power rating, simple design and affordability. The SH-RS series is available from 3.0kW to 10kW and features 200% solar oversizing, a digital display, instantaneous backup power, and high efficiency.
